

Are you protected?

Create Time ... Get Protected

Stay Safe With a Home-Security Checklist

Lighting and Landscaping

1. Install motion lighting around the perimeter of your home, out of arm's reach.
2. Make sure all home entry areas are especially well lit.
3. Keep all trees trimmed to help eliminate hiding places.
4. Voice Alerts offer notification that someone has entered your property.

Doors and Entry Areas

1. All exterior doors should have a high-quality deadbolt.
2. Install door viewers in all entry wood doors.
3. Make sure that all strike plates (the plate that receives the bolt when in the locked position) are installed with three-inch screws.
4. All out-swinging doors should have the outside hinges pinned to prevent removing the door.
5. All sliding patio doors should have a heavy duty door jammer locked in place to prevent intruders.
6. Interior doors from the garage to home should be of solid core construction with deadbolts installed.

Never leave the remote garage door opener in your vehicle (purchase a mini remote and keep it on your key chain).

Video/Audio

1. Install security bars (with safety releases) on all vulnerable house windows including the garage and basement.
2. Install window coverings on garage windows.
3. A bright pulsing light placed on a garage will alert you and neighbors that someone is near or in your garage.
4. Security Video Camera will let you know who is outside on your property.
5. A MACE Wireless Alarm System will help to notify you that there are unwanted behaviors on your property and also will call up to 5 phone numbers if you are not home or in case of an emergency.

Visit 25/7 Protection, our professionals will help you with ways to make your home feel more protected.
