25/7 Protection  
17750 West Valley Hwy  
Tukwila, WA 98188

Richard,

I wanted to take a moment of your time to tell you how much I appreciate the effort and the workmanship that 25/7 provided in the security camera system installed this past summer. I came to you with a basic knowledge of what I thought we needed. You took the time and patience to help educate me in the different systems and available options. Then after working through a couple of plan revisions you made sure we received the system that fit us best.

Unfortunately I've had occasion to have to review the recordings to locate different occurrences in our equipment storage yard. The system 25/7 designed and installed proved itself worthy on each occasion. I was able to locate the occurrences; either record it to a DVD or print snap shots and use them to prove my case.

25/7 delivered exactly what we ordered.

Thank you for the time, patience and attention this job required.

Sincerely,

A handwritten signature in blue ink, appearing to read "Gary Casey", is written over the typed name.

Gary Casey
